## COMPANY PROFILE

**Shapar Agro™** with **ISO 9001:2008** certified in farm equipments manufacturers of all kind of Tractor Operated, Ox operated, Manual, Automatic Seed Drill. Seed Drill useful for planting seeds & fertilizer, creating water channels and covering the seeds with soil all at one time. Our firm gives service on the support of our construction facility that is one of the best in the industries. Our equipments are greatly appreciated for their high reliability, High functional efficiency, abrasion resistant and dimension accuracy.

A team of well trained and experienced professionals concentrate hard on maintaining the quality of the products. Once the manufacturing is completed, each product is stringently tested on defined parameters, in order to deliver the finest quality products at the client's doorstep.

## OUR INFRASTRUCTURE

It is the strong and sound infrastructural base that makes our products unique. We are equipped with all the modern facilities that our firms require. We have no doubt in the abilities of our team of professionals that are involved in all stage of our production process. They are highly responsible for our outstanding products we deliver to our customers. We are open to all kinds' innovations and improvisations of our product range. Our facilities are equipped with sophisticated machines and devices. Optimum flexibility is maintained in the manufacturing system. This permits us to undertake the production of a wide variety of products, ranging from small to large scale of order. The latest equipment is used enabling us to produce superior quality products. We always stock sufficient materials to cater for our customer's demands promptly. Our inventory system provides easy identification and trace ability.

## QUALITY

To bring out value based quality products our products are thoroughly checked and supervised before they are finally delivered to our customers. The qualities of our products are maintained at all costs.

The machines are known for their high efficiency and durability. Our modern techniques implemented by experienced workforce result in high quality products. We assure quality of our machines by testing them on various parameters. All of our machines are very easy to use.

## FEATURES

- Due to its multipurpose usage farmer can plant seeds at big farms in shorter period of time. Due to this feature they also reduce the cost of labour, saves expensive high breed seeds, seeds can be planted at even distance as per setting in the hopper / rotor.
- In tractor driven seed planter either 2 different crops can be planted or seeds & fertilizer can be planted at a time. The available size of seed planter is applicable as per tractor capacity either mini or heavy tractor.

## TRACTOR OPERATED AUTOMATIC SEED CUM FERTILIZER DRILL

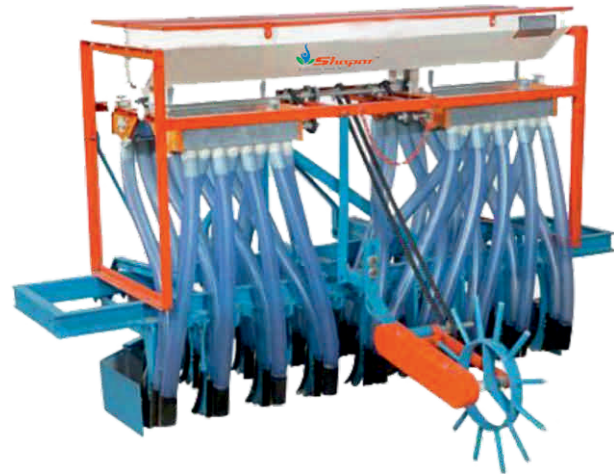

|                               |  |
|-------------------------------|--|
| Model                         | 5 Teeth to 21 Teeth, Double Hoppers  |
| No. of Rows                   | 5 to 21  |
| Lengh of Main frrame          | 57 Inch to 89 Inch   |
| Hopper Capacity Approx in Kg. | 25 kg. to 65 kg.   |
| Weight Approx in Kg.          | As per Model   |
| Require of Tractor H.P.       | 35 HP onwards  |
| Extra Facility                | Bumper Levelr  |
| Which Seed for Sowing         | Wheat, Ground-Nut, Cotton seed, Castor, Garlic, Maize, Cumin seed, Soya been, Sunflower, all types of Grains, Cereals & Pulses seeds |

## TRACTOR OPERATED AUTOMATIC SEED CUM FERTILIZER DRILL

|                               |  |
|-------------------------------|--|
| Model                         | 5 Teeth to 12 Teeth, Double Hoppers  |
| No. of Rows                   | 5 to 12  |
| Lengh of Main frrame          | 57 Inch to 96 Inch   |
| Hopper Capacity Approx in Kg. | 25 kg. to 65 kg.   |
| Weight Approx in Kg.          | As per Model   |
| Require of Tractor H.P.       | 35 HP onwards  |
| Extra Facility                | Bumper, Levelr   |
| Which Seed for Sowing         | Wheat, Ground-Nut, Cotton seed, Castor, Garlic, Maize, Cumin seed, Soya been, Sunflower, all types of Grains, Cereals & Pulses seeds |
